

# Perpetual e-Motion

*Come help me celebrate;  
dance to the band that  
everyone's talking about!*

*As featured on NPR!  
[www.perpetuale-motion.com](http://www.perpetuale-motion.com)*

*Propulsive, Passionate, Progressive...*

*Captivating and passionate, that's how we like to serve up our dance tunes. Come lose yourself in the surreal sounds of electric fiddle, swirling didgeridoo, driving guitar and foot percussion. This power duo, perched at the convergence of electronic and traditional dance music, is solely the bi-product of two musicians who love to groove and inspire movement.*
